Compulsory modules:

MN5442 Corporate Financial Management				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	1
Academic year:	2015/6			
Availability restrictions:	Not available as an optional module for any programme.			
Planned timetable:	To be arranged.			
Financial decisions are made at all levels of management and thus are at the very heart of all organisations. Managers have broadly three major responsibilities in the financial domain which include investment decisions, financing decisions and managing financial risks. Sound financial decisions can help ensure the survival of organisations in an uncertain global environment. Broadly, this module will deal with the first two tasks. The aim of this module is to provide an introduction to modern theories of financial management and to show how to apply the theory to realistic financial decision problems.				
Programme module type:	Compulsory for Finance and Management Postgraduate Programmes.			
Learning and teaching methods and delivery:	Weekly contact: Lectures and seminars.			
Assessment pattern:	2-hour Written Examination = 50%, Coursework = 50%			
Module Co-ordinator:	Dr L Nguyen			
Lecturer(s)/Tutor(s):	Dr L Nguyen

MN5444 Strategic Financial Management				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	2
Availability restrictions:	Not available as an optional module for any programme.			
Planned timetable:	To be arranged.			
<p>The aim of this module is to equip students with the capability of being able to manage complex strategic and financial related situations. This module will apply important analytical tools for making sound decisions in the areas of mergers and acquisitions, valuation and corporate restructuring. Overall, this module will utilise the significant linkages between these areas, as well as between financial strategy and overall strategy management, to help strengthen their firm's competitive advantage. An understanding of strategic management and corporate financial techniques is essential to assessing and developing an organisation's strategy to ensure they are matching the company's strategic advantages to the business environment in which they operate and the module seeks to address this requirement.</p>

MN5421 Managing People in Global Markets				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	1
Availability restrictions:	not available to the Banking and Finance Postgraduate Programme.			
Planned timetable:	To be arranged.			
The module focuses on the management of human resources in global markets and will help participants understand the problems of managing people in an international/multinational context. One of the most important trends in the development of modern economies is the increased globalisation of business. Notwithstanding its economic and social impact, however, globalisation is having a significant impact on how we manage people, not only in multinational enterprises but in our indigenous companies as, increasingly, we borrow ideas on "best practice" from overseas. Such efforts at globalisation, whilst generally successful in bringing economic success, have been fraught with problems, which are often the consequence of ethnocentric management teams and their attempts to export US-style "best practice" human resource management to other countries. Thus, it is critically important for globalising firms to make sensible and contextually-sensitive decisions in key areas of human resource management, which take into account institutional, cultural and psychological differences between parent company institutions, values and practices, those of host countries and those of third country nationals employed to work in global organisations. These decisions usually concern such areas as how people are organised, recruited, selected, deployed, developed, motivated, compensated and how their performance is managed. They also focus on whether or not global organisations employ uniform human resource practices in their various locations throughout the world. Ultimately, effective international human resource management (IHRM) rests on a thorough understanding of the problems of managing people from different backgrounds and this module attempts to explore such problems in-depth and help students apply their understanding to practical managerial situations.

MN5510 Entrepreneurship, Innovation and Creativity				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	1
Availability restrictions:	not available to the Banking and Finance Postgraduate Programme.			
Planned timetable:	To be arranged.			
Entrepreneurship is often taught within the context of new venture creation. This module takes an alternative approach and will consider the entrepreneur opportunity locus, the role of creativity, exploitation of change and source & application of innovation. It will provide insight into the nature and identity of entrepreneurship by critically analysing the way entrepreneurial activity creates economic wealth/social value; and will impart an understanding of individual entrepreneurship, corporate entrepreneurship and social entrepreneurship. This module will draw on case studies from the creative industries such as Syco Entertainment, Delfont Macintosh and Les Miserables; and firms such as Apple, Nokia and Google. It will consider the corporate culture and the organisation of entrepreneurial firms and enable students to consider career paths, and engagement with entrepreneurs.

MN5513 Ethics, Organisations and Management				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	1
Availability restrictions:	not available to the Banking and Finance Postgraduate Programme.			
Planned timetable:	To be arranged.			
<p>This module develops students' understanding of the ethical issues surrounding management and organisations. The module is arranged around five core themes, representing the practical problems that face managers and organisations: How should we understand capitalism? What is the purpose of a corporation? Can managers be moral beings? Can markets be ethical? How should wealth be distributed? We approach these themes from philosophical, sociological, and organisational perspectives, developing students' understanding of the issues through theoretical analysis, case studies and extensive discussion. As these and similar questions are addressed, students will be encouraged to reflect and draw upon their own experiences of organisational life as issues are analysed, challenged, researched, evaluated and assessed.</p>

MN5554 Marketing and Society				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	2
Availability restrictions:	not available to the Banking and Finance Postgraduate Programme			
Planned timetable:	To be arranged.			
This module examines the effects of marketing on societies. The powerful social and cultural influence of marketing has been widely recognised. Through branding and communication marketing shapes consumption, identity and relationships. Our appearance, ideas and behaviour are influenced by marketing in ways more subtle and pervasive than we might think. What we eat, drink and wear; where we live and how we travel; our work and leisure; even the most intimate details of our lives respond to the powers of marketing. The future of marketing is challenged by the negative connotations of globalisation. Actions by certain firms have caused strong reactions to negative effects on workers, consumers and environments, such that a plethora of anti-corporate protest movements has been mobilised in recent decades.				
Programme module type:	Optional for Management Studies MRes Programme, and all other Postgraduate Programmes in the School of Management but not available to the Banking and Finance Postgraduate programme.

MN5604 Financial Systems				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	2
Planned timetable:	To be arranged.			
<p>Financial systems around the world are currently undergoing many changes. These changes arise from competition, consolidation, information technology, product and geographic expansion of manufacturing, service and financial services firms, de-regulation and re-regulation. These changes are taking place within a volatile and uncertain economic environment, and have direct implications for the development, growth and stability of financial systems. This module aims to outline the fundamentals of financial systems. A central theme running through the module is the influence of technology and innovation along with the challenges that this poses to regulators.</p>

MN5607 International Financial Management				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	1
Planned timetable:	To be arranged.			
<p>From daily financial management to long term strategic decision making, a full understanding of international finance is essential for all business managers. This module begins with the international monetary frameworks and the conduct of monetary policies in major developed economies. An essential feature of international finance is the crucial role of foreign exchange rate when cross-border transactions and capital flows occur. The determination and forecast of exchange rates and their interdependence with interest rates is discussed, together with the international money and capital markets and capital flows. Recent decades saw an explosion of new derivative products to hedge risks and an understanding of basic derivatives such as options and future/forward is required of the modern business manager.</p>

MN5608 Risk Management				
SCOTCAT Credits:	20	SCQF Level 11	Semester:	2
Planned timetable:	To be arranged.			
<p>The last two decades have witnessed a spectacular change and growth in financial markets (equity markets, foreign exchange markets, euromarkets and international bond markets). This has brought a new breed of investors that see the role of managers as enhancing their shareholder value and protecting their wealth from potential risk. One of the challenging tasks of managers in recent years has been to manage the exposure to risks that arises from corporate decisions. The 1980s witnessed a resurgence of mergers, acquisitions and take-overs. This brought about new ways of financing such activities with project evaluation, funding and hedging have to be considered together. The principal aim of this module is to provide an introduction to managing the exposure to risk and to apply relevant theories to realistic financial decision problems. This module will also deal with assessing and measuring non-financial risks and their importance in the decision making processes within the firm.</p>
