

## **School of Economics & Finance**

### **Important Degree Information:**

#### **B.Sc./M.A. Honours**

The general requirements are 480 credits over a period of normally 4 years (and not more than 5 years) or part-time equivalent; the final two years being an approved honours programme of 240 credits, of which 90 credits are at 4000 level and at least a further 120 credits at 3000 and/or 4000 (H) levels. Refer to the appropriate Faculty regulations for lists of subjects recognised as qualifying towards either a BSc or MA degree.

#### **B.Sc./M.A. Honours with Integrated Year Abroad**

The general requirements are 540 credits over a period of normally 5 years (and not more than 6 years) or part-time equivalent; the final three years being an approved honours programme of 300 credits, of which 60 credits are gained during the integrated year abroad, 90 credits are at 4000 level and at least a further 120 credits at 3000 and/or 4000 (H) levels. Refer to the appropriate Faculty regulations for lists of subjects recognised as qualifying towards either a BSc or MA degree.

**Other Information:** In the case of students who spend part of the Honours Programme abroad on a recognised Exchange Scheme, the Programme Requirements will be amended to take into account courses taken while abroad.

<b>Degree Programmes</b>	<b>Programme Requirements at:</b>
(M.A. Honours or B.Sc. Honours): <b>Applied Economics Degree</b>	<p><b>Single Honours Applied Economics Degrees:</b></p> <p><b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202 and EC3203</p> <p><b>Level 4:</b> at least 135 credits including EC4205 and EC4302 (60 credits) and at least 75 credits from EC4203, EC4501-EC4509, EC4511-EC4518 and from selected MN and IR modules approved by the Head of School</p>

## Economics & Finance - Honours

<b>Degree Programmes</b>	<b>Programme Requirements at:</b>
<p>(M.A. Honours or B.Sc. Honours): <b>Economics Degree</b></p>	<p><b>Single Honours Economics Degrees:</b>  <b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202 and EC3203;</p> <p><b>Level 4:</b> 165 credits including EC4201, EC4202 and EC4203 (75 credits) and 90 credits from EC4204, either EC4300 or EC4301, EC4501-EC4518</p>
<p>(M.A. Honours or B.Sc. Honours): <b>Financial Economics Degree</b></p>	<p><b>Single Honours Financial Economics Degrees:</b>  <b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202 and EC3203</p> <p><b>Level 4:</b> 165 credits including EC4201, EC4202, EC4204, EC4501, EC4502 (105 credits) and 60 credits from EC4203, either EC4300 or EC4301, EC4501-EC4518</p>
<p>(B.Sc. Honours):  <b>Economics and Computer Science, Internet Computing, Management, Management Science, Mathematics, Statistics.</b></p> <p>(M.A. Honours):  <b>Economics and Ancient History, Arabic, Biblical Studies, English, French<sup>^</sup>, Geography, German<sup>^</sup>, International Relations, Italian<sup>^</sup>, Management, Mathematics, Mediaeval History, Middle East Studies, Modern History, Philosophy, Russian<sup>^</sup>, Social Anthropology, Spanish<sup>^</sup>, Statistics.</b></p> <p><sup>^</sup> available also as 'with Integrated Year Abroad Degrees'</p>	<p><b>Economics element of Joint Honours Degrees:</b>  <b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202, EC3203</p> <p><b>Level 4:</b> at least 45 credits from EC4201-EC4204, EC4302, EC4501-EC4518</p>

<b>Degree Programmes</b>	<b>Programme Requirements at:</b>
<p>(B.Sc. Honours):  <b>Economics with French<sup>^</sup>,                      Russian, or Spanish<sup>^</sup></b></p> <p>(M.A. Honours):  <b>Economics with German<sup>^</sup>,                      Russian<sup>^</sup>, Social                      Anthropology, or Spanish<sup>^</sup></b></p> <p><sup>^</sup> available also as 'with Integrated Year                      Abroad Degrees'</p>	<p><b>Economics element of Major Degree Programmes:</b>  <b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202 and EC3203</p> <p><b>Level 4:</b> at least a further 75 credits including EC4203 (30 credits) and at least 45 credits from EC4201-EC4202, EC4204, EC4501-EC4518</p>
<p>(M.A. Honours):  <b>Modern Languages with                      Economics<sup>^</sup></b></p> <p><sup>^</sup> available also as 'with Integrated Year                      Abroad Degrees'</p>	<p><b>Economics element of Minor Degree Programmes;</b>  <b>Level 1:</b> At least 20 credits in EC1000 level modules.</p> <p>Please note: A pass in EC1001 is a prerequisite for enrolment in EC2002, EC2003 and EC2004. A pass in EC1002 is a prerequisite for enrolment in EC2001.</p> <p><b>Level 2:</b> At least 60 credits comprising passes in EC2001, EC2002, EC2003 and EC2004 with passes at 11 or better in both EC2001 and EC2002 (students who have taken MT1007 may be exempted from the requirement to take EC2003 at the discretion of the Head of School; students who have taken MT1001 or MT1002 may be exempted from the requirement to take EC2004 at the discretion of the Head of School)</p> <p><b>Level 3:</b> 75 credits comprising EC3201, EC3202 and EC3203</p> <p><b>Level 4:</b> 15 credits from EC4501-EC4518</p>

## **Economics & Finance - Honours**

### **Modules**

**Normally the prerequisite for each of the following Honours modules is entry to the Honours Programme(s) for which they are specified, as well as any specific prerequisite(s) given.**

**General degree and non-graduating students wishing to enter 3000 or 4000 level modules must consult with the relevant Honours Adviser within the School before making their selection.**

### **Economics (EC) Modules**

#### **EC3201 Advanced Microeconomics**

Credits: 30.0 Semester: 1

Description: The module is designed to provide an advanced understanding of selected but central topics in microeconomics. Students will be introduced to a range of formal analytical models that will help develop their understanding of core microeconomic theory. The subjects dealt with are: Choice as constrained optimisation in consumer and producer theory, uncertainty, exchange, production and trade, imperfect competition and welfare economics. The module aims to develop a firm mathematical base to the economic theory involved.

Class Hour: 10.00 am Monday, Tuesday and Wednesday

Teaching: Three lectures and a weekly tutorial or laboratory

Assessment: Continuous Assessment = 30%, 3 Hour Examination = 70%

#### **EC3202 Econometrics 1: The Classical Linear Regression Model**

Credits: 15.0 Semester: 1

Description: This module introduces the student to the classical linear regression model with an emphasis on applied analysis using computers. The module also develops the student's understanding of the key concepts of statistical analysis and their application in economics. The skills that the student will acquire include the ability to estimate, interpret and test economic relationships and to use equations to make forecasts. These are essential components of the toolkit of a trained economist and are transferable skills in relation to many types of career.

Class Hour: To be arranged.

Teaching: Two lectures and a weekly tutorial or laboratory

Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

#### **EC3203 Advanced Macroeconomics**

Credits: 30.0 Semester: 2

Description: The module is designed to provide an advanced understanding of monetary theory and macroeconomics. Students will be introduced to a range of formal analytical models that will help develop their understanding of key macroeconomic and monetary relationships. The lectures present in turn models of the demand for money and the supply of money, formal AD/AS models with rational expectations, and models of the determination of the exchange rate. They also analyse the issue of time inconsistency in monetary policy and present the main features of New Keynesian macroeconomics. The course concludes with a brief survey which locates the development of these models in relation to the major schools of thought of the last fifty years.

Class Hour: 10.00 am Monday, Tuesday and Wednesday.

Teaching: Three lectures and one tutorial or laboratory

Assessment: Continuous Assessment = 30%, 3 Hour Examination = 70%

**EC4201 Economic Analysis**

Credits: 30.0 Semester: 1

Availability: Available only to students in the second year of the Honours Programme.

Description: The module is designed to provide an advanced understanding of current economic theory, covering both macroeconomics and microeconomics. The macroeconomic content of the module will include models of the microfoundations of money; aspects of economic growth, such as the Ramsey model, the Diamond model and the question of endogenous growth; and a range of issues on unemployment. The microeconomic content of the module will cover the role which information plays in markets with particular attention placed on the inefficiencies arising from asymmetric information as well as concepts and applications of game theory in economics and social science.

Class Hour: 10.00 am Monday, Tuesday and Wednesday.

Teaching: Three lectures and a weekly tutorial or laboratory

Assessment: Continuous Assessment = 30%, 3 Hour Examination = 70%

**EC4202 Econometrics 2**

Credits: 15.0 Semester: 1

Description: The module seeks to equip students with advanced skills in data analysis using both time series and cross-section econometric techniques. These skills include the ability to explain and interpret simultaneous equation models, limited dependent variable models and the properties of stationary and non-stationary variables. The module builds upon the knowledge of the classical linear regression model acquired in EC3202.

Class Hour: 10.00 am Thursday and Friday.

Teaching: Two lectures and a fortnightly tutorial

Assessment: Continuous Assessment = 30%, 2 Hour Examination = 70%

**EC4203 Contemporary Issues**

Credits: 30.0 Semester: 2

Prerequisites: EC3201, and EC3203

Description: The module is designed to show students how to use economic analysis to understand a range of contemporary economic policy issues. It will cover a range of topics such as privatisation, regulation, the economics of the European Community, central bank independence, European monetary union, foreign exchange markets, the economics of global warming and carbon taxes. The exact list of topics will vary between years.

Class Hour: 10.00 am Thursday and Friday.

Teaching: Two lectures and occasional seminars

Assessment: Continuous Assessment = 40%, 3 Hour Examination = 60%

**EC4204 Financial Economic Theory**

Credits: 30.0 Semester: 2

Prerequisites: EC4501, EC4502, EC4201, EC4202

Description: This module is an introduction to the theoretical development of asset pricing models. Whereas EC4501 and EC4502 emphasise the solution of small case-studylike financial problems via the application of the standard CAPM pricing model, in EC4204 we derive the CAPM model from its foundations and study its theory in detail. The theoretical implications of pricing models for evaluating portfolio performance are also studied in depth. There is also extensive coverage of the theoretical foundations of option pricing. The binomial approach and its extensions to multinomial option pricing and, ultimately, the derivation of the Black-Scholes formula are studied.

Class Hour: To be arranged.

Teaching: Three lectures and a seminar

Assessment: Continuous Assessment = 30%, 3 Hour Examination = 70%

## **Economics & Finance - Honours**

### **EC4205 Economic Policy**

Credits:	30.0	Semester:	1
Prerequisites:	Available <b>only</b> to students in the second year of the Applied Economics Honours Programme		
Description:	The module will study a range of contemporary topics in economic policy. It will introduce students to analyses of the choices confronting policy makers. The subject matter will range from the study of how individual markets can and should work to the broadest interactions in the world economy. The module will draw heavily on contemporary studies published by policy think tanks such as the CEPR, IFS, PSI and IPPR. Because the policy agenda is continually changing, the actual topics covered in the module will vary from year to year. Examples of topics that might be covered would be public/private partnerships, pension reform, the funding of higher education, competition policy, regulation, trade policy, technology policy and the economic issues of EU enlargement.		
Class Hour:	To be arranged.		
Teaching:	Two lectures and a seminar		
Assessment:	Continuous Assessment = 40%, Three Hour Examination = 60%		

### **EC4300 Dissertation in Economics**

Credits:	30.0	Semester:	Whole Year
Prerequisites:	Available only to students in the second year of the Single Honours Economics or Single Honours Financial Economics Programmes.		
Anti-requisite:	EC4301		
Description:	This module is designed to develop students' independent research, writing and presentation skills and to enable them to apply economic and/or statistical and econometric analysis to a selected topic in economics. The dissertation must be on a topic in economics and a preliminary outline of it should have been approved within the first two weeks of the semester by the Honours Tutor and by the proposed dissertation supervisor. The maximum number of words allowed is 15,000 but students will be advised to cover the topic in around 10,000 words.		
Class Hour:	None, but attendance at the departmental research colloquia required.		
Teaching:	Three supervision meetings per semester.		
Assessment:	Continuous Assessment = 15%, Dissertation = 85%		

### **EC4301 Group Dissertation**

Credits:	30.0	Semester:	Whole Year
Prerequisites:	Available only to students in the second year of the Single Honours Economics or Single Honours Financial Economics Programmes.		
Anti-requisite:	EC4300		
Description:	This module is designed to develop students' research, writing and presentation skills and to enable them to apply economic and/or statistical and econometric analysis to a selected topic in economics, as a part of a research team of 2 or 3 members. The dissertation must be on a topic in economics and a preliminary outline of it should have been approved within the first two weeks of the semester by the Honours Tutor and by the proposed dissertation supervisor. The maximum number of words allowed is 20,000 but students will be advised to cover the topic in around 18,000 words.		
Class Hour:	None, but attendance at the departmental research colloquia required.		
Teaching:	Three supervision meetings per semester.		
Assessment:	Continuous Assessment = 15%, Dissertation = 85%		

**EC4302 Research Project**

Credits: 30.0 Semester: 2

Prerequisites: Available only to students in the second year of the Single Honours Applied Economics Programmes or of a joint degree involving Economics

Description: This module is designed to develop students' independent research, writing and presentation skills and to enable them to apply economic and quantitative analysis to a selected topic in economics. The project must be on a topic in economics chosen from a list collated by the Honours Coordinator or on a topic approved by him/her. The maximum number of words allowed is 10,000 but students will be advised to cover the topic in around 8,000 words.

Class Hour: none, but attendance at the departmental research colloquia required.

Teaching: Three supervision meetings per semester.

Assessment: Continuous Assessment = 15%, Dissertation = 85%

**EC4501 Capital Investment Analysis**

Credits: 15.0 Semester: 1

Description: This module introduces the basic concepts of investment value analysis. The ultimate aim is to provide the student with a standard approach to define, measure and predict the value of investments in a world of uncertainty. The standard notion of risk versus return is defined and analytical economic models of how risks and returns are determined and traded in financial markets are applied to solve investment analysis problems. The usual valuation problems covered in this module involve corporate investments, a wide array of corporate liabilities such as shares and bonds and associated financial contracts such as options.

Class Hour: To be arranged

Teaching: Two lectures per week and occasional seminars

Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

**EC4502 Corporate Finance**

Credits: 15.0 Semester: 2

Prerequisites: EC4501

Description: In this module we investigate the problem of how a collection of corporate liabilities is affected in value by corporate actions. Possible actions include corporate investment decisions, decisions regarding the firm's financial structure, changes in management rules and compensation and changes in the scope, specialisation and legal environment of the corporation's business. As in the prerequisite module, EC4501, we emphasise standard methods for solving problems under economic uncertainty. At the end of this module the student will have a good working knowledge of institutions and the theory and valuation methods used worldwide in major corporations and financial institutions.

Class Hour: To be arranged

Teaching: Two lectures per week and occasional seminars

Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

**EC4503 The Economics of Innovation**

Credits: 15.0 Semester: 2

Availability: 2004-05

Description: Innovation is both a major contributory factor in economic growth and a crucial element of competitive behaviour and policy. The aim of this module is to introduce students to recent developments in the economic theory of innovation. The module, which is analytical in nature, examines the incentives firms have to innovate by the introduction of new products and new processes and, in particular, how this is affected by strategic competitive conditions.

Class Hour: To be arranged

Teaching: Two lectures

Assessment: Continuous Assessment = 40%, Two Hour Examination = 60%

## **Economics & Finance - Honours**

### **EC4504 Economics of Social Life**

Credits: 15.0 Semester: 1

Availability: 2004-05

Description: This module considers the application of microeconomic theory to various aspects of non-market social activity not generally considered to be economic in character. Much of the course focuses on the household production model introduced by Gary Becker, and its various applications to marriage, divorce, sleep, fertility, addiction and religion. In addition, there will be some consideration of the economics of courtship, sex, cohabitation, illegitimate births, altruism and gift giving.

Class Hour: To be arranged

Teaching: Two lectures

Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

### **EC4506 Experiments in Economics**

Credits: 15.0 Semester: 2

Availability: 2005-06

Description: This module deals with aspects of bargaining, negotiation, conflict and choice under uncertainty. It draws heavily on evidence from laboratory experiments on human subjects which aim to test the congruence of game theory and microeconomic theory with observed behaviour. The topics covered will be selected from the following: auctions and bidding behaviour; sunk cost accounting; preference reversal; free riding and public goods; deadline effects and ultimatum games; co-ordination games; the determinants of bargaining behaviour; the subject incentive problem; experimental design and experimental ethics.

Class Hour: To be arranged

Teaching: Two lectures

Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

### **EC4510 Issues in Economic Policy**

Credits: 15.0 Semester: 1

Anti-requisite: EC4205

Description: The module will study a range of contemporary topics in economic policy. It will introduce students to analyses of the choices confronting policy makers. The subject matter will range from the study of how individual markets can and should work to the broadest interactions in the world economy. The module will draw heavily on contemporary studies published by policy think tanks such as the CEPR, IFS, CEPA, PSI and IPPR. Because the policy agenda is continually changing, the actual topics covered in the module will vary from year to year. Examples of topics that might be covered would be public/private partnerships, pension reform, the funding of higher education and competition policy, regulation, trade policy, technology policy and the economic issues of EU enlargement.

Class Hour: To be arranged

Teaching: Two lectures

Assessment: Continuous Assessment = 40%, Two Hour Examination = 60%

### **EC4511 Labour Economics**

Credits: 15.0 Semester: 1

Availability: 2004-05

Description: Core microeconomics modules provide the basic tools for the understanding of labour economics. This module aims to build upon these foundations, examining in some detail a series of topics of interest within the labour economics field. These include the functioning of labour markets, and how wages, employment and unemployment are determined. In particular, the role of differing institutions across countries and how they influence labour market outcomes will be explored.

Class Hour: To be arranged

Teaching: Two lectures

Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

**EC4512 Law and Economics**

Credits: 15.0 Semester: 2  
Availability: 2005-06

Description: The module is designed to develop an analytical understanding of the economic function of legal principles and procedure, using microeconomic theory. Students analyse property, contract, family, tort and criminal law by the application of economic models and techniques. Topics include the optimal criminal deterrence, property and liability rules of nuisance, optimal breach of contract, and the costs of accidents.

Class Hour: To be arranged  
Teaching: Two lectures  
Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

**EC4513 The Macroeconomics of European Integration**

Credits: 15.0 Semester: 2  
Availability: 2004-05

Description: The purpose of the module is to explore the macroeconomic and monetary issues involved in European economic integration. After a historical introduction focused on the question of why the members of the EC/EU have sought exchange rate stability and then monetary union, the module provides a thorough examination of the theory of optimum currency areas, including both traditional and modern approaches, and both theoretical and empirical European-related research. It then investigates the workings of the pre-EMU European monetary arrangements, the European Monetary System. The monetary policy strategy of the ECB will then be considered and the relationship between fiscal and monetary policy and the desirability of stability pact limits on fiscal policy will be examined. Finally, we will examine and evaluate the experience of EMU.

Class Hour: To be arranged  
Teaching: Two lectures  
Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%

**EC4518 Urban Economics**

Credits: 15.0 Semester: 2  
Availability: 2004-05

Description: The module examines basic theory and models in urban economics and the use of these in analysis of problems facing cities, primarily in Europe. The way in which the characteristics of cities affect how economic processes unfold in space and the contribution of cities to growth in the national and international economy are examined. Efficiency and equity issues are considered in the urban context and specific urban problems, such as housing, crime and poverty, traffic and the environment, are dealt with in the context of urban policy.

Class Hour: To be arranged  
Teaching: Two lectures  
Assessment: Continuous Assessment = 40%, 2 Hour Examination = 60%
