## Medicine (MD) Modules

### MD2001 Foundations of Medicine 1

Credits: 60 Semester: 1

Prerequisites: There will be direct entry into course for students approved by the Faculty of Medicine Business Committee

Description: The medical course will take the form of an integrated spiral curriculum. Foundations of Medicine 1 and 2 form the initial turn of the spiral in which fundamentally important knowledge is reviewed. During subsequent turns of the spiral, topics will be revisited at a more advanced level and with increasing clinical application. Throughout the curriculum a series of core clinical cases will illustrate the clinical context.

Foundations of Medicine 1 will:

- ◆ review molecular and cellular medicine including genetics
- ◆ give a general overview of the structure and functions of the body systems from the microscopic to the macroscopic level
- ◆ introduce the history and philosophy of medicine
- ◆ give a preliminary introduction to medical ethics and communication skills relevant to medicine
- ◆ use clinical problems to develop an understanding of the levels of consciousness and the assessment of health status.

Class Hour: To be arranged.

Teaching: 8 Lectures and 6 hours of Seminars/tutorials/practicals each week. Clinical case studies and clinical skills on a 2 week cycle. Up to 6 hours per week of directed self-learning

Assessment: Continuous Assessment = 25%, 2 Examinations of up to 2 hours' duration each and 1 hour Objectively Structured Practical Exam (OSPE) = 75%
